## ANCESTORS PICTURES

Right picture

Wrong Picture

## PICTURE PROBLEMS

Last year I was sent a picture of what I thought was my 4th great grandfather. It was a great picture much better than the one I had and I was so excited. I put it into my genealogy program and used it several times.

What a crushing blow to find out a couple months ago that it wasn't really a picture of my grandfather. Someone had taken the picture out of a book in the Family History Library, cropped the picture and named it Nahum Curtis. It was really a picture of a Thaddus Alword. I have learned my lesson and will be more careful in the future.

The internet is great for the information that you can find, but we need to be careful that we don't accept everything as fact.

## CLASSES AT FHC

Internet web sites

Mormon Battalion Pension files
